

Examples of well structured pages with Microdata

Here, we propose a few links to Web pages that were created by students of previous editions of this course (from W3C's W3DevCampus classrooms).

The students had to create a Web page that presented themselves, with some information: name, job, organization they work for, location, etc. and of course enrich the page with microdata. They had to follow the best practices concerning the new structural elements, headings, etc.

Click on these pages and look at the source code...

ABOUT CONTACT

Hi there!!
My name is Gonzalo Moreno. I'm from MADRID, 34 years old; I studied all my life

Gonzalo Moreno
M&G PROJECT MANAGEMENT

Microdata:

The screenshot shows a web browser with a Microdata viewer overlay. The overlay is titled "Microdata" and has a "(JSON)" button with a close icon. It displays three items:

ITEM	
type:	http://schema.org/Person
properties:	
name:	Gonzalo Moreno
jobtitle:	Associate Director
description:	Front-End Web Developer
address:	ITEM 1
telephone:	(+34) 606-424-338
email:	Email me

ITEM 1	
type:	http://schema.org/PostalAddress
properties:	
streetAddress:	Villa Padierna Residences, 6
addressLocality:	Marbella
addressRegion:	Malaga
postalCode:	29679
addressCountry:	Spain

ITEM	
type:	http://schema.org/Organization
properties:	
name:	M&G PROJECT MANAGEMENT

About me (Personal life)

History

I born th 26th November 1982. So, I am 32 years old. I consider me a man without a real country. I grew up in Morges, near Lausanne in Switzerland. I spent over there 9 years, from 6 to 15 when I came back to Spain. After that I lived during some years in Ourense before going to the universty of Vigo. I also lived 6 months in Saarbrocken, Germanv. I spent over there the best 6 months of mv live during mv Framus exchange. Now, after some years working in Snain I have made the decision to live in London.

Third example

Visit the online page: <http://www.webbem.nl/>^[3]

The screenshot shows a web browser window with the address bar displaying www.webbem.nl/microdata.html. The website has a navigation bar with links: Home, Elements and Microdata, Multimedia, Canvas, and Form Geo Persist DnD. The main content area is titled 'Assignment: Week 1' and includes a section for 'Create an "About" page' with a button to 'Click this bar to see the details and constraints'. Below this is a 'Progress of this assignment' section with a list of 7 steps. A 'Project: HTML5' section shows a preview of the 'My Information' page, which includes a sidebar with personal details and a main content area with the same assignment instructions. The 'Additional' section on the right lists tools like Google Rich Snippets, HTML5 Outliner, JSON View, Structured data linter, Validator.nu, and W3C Markup Validation.
